

ICE & SNOW MELT

Introducing a revolutionary ice and snow melt system by Warm Waves. Using far infrared technology, this radiant system makes maintaining paths, sidewalks, entryways, driveways, and parking lots a breeze.

Reduce Liability Of Potential Falls

Lower Maintenance Costs

No More Plowing or Shoveling

More Cost Effective Than Hydronic Systems

Carbon Based Product Provides Full Coverage

At 1/60 Inch Thick, Installation Is Easy Anywhere

Hi-Tech Building Systems provides clients full engineering and installation services to make the process simple.

“The piece of mind we gain from knowing our visitors and employees are safe from potential falls is invaluable. The Warm Waves Ice and Snow Melt System is a vital to our facility. We will be making it part of any future building projects.
